

# Standard Full Cabinets

## SECURE, CONNECTED, 100% UPTIME

365 Data Centers offers a secure and easy way to colocate with our Standard Full Cabinets. With keyed locking doors, 42 rack units of space, fully adjustable rails, and multiple power options, Standard Full Cabinets allow you to leverage our secure, HIPAA and SSAE 16 certified facilities in any of our 10 locations across the United States so you can grow your business, get closer to your customers, and expand to new markets.

## WHY STANDARD FULL CABINETS?

**FLEXIBLE:** Standard Full Cabinets come with rails that are fully adjustable, front to rear. Whether you're getting just one cabinet or several, the flexible mounting profile and knockouts at the top, bottom, side and rear allow for cable management and multiple configuration options.

**SECURE:** All our Standard Full Cabinets are housed in our HIPAA and SSAE 16 compliant data centers with physical and access security. Each Standard Full Cabinet comes with a lock to ensure that only you can access your infrastructure.

**CONNECTED:** With over 80 unique carriers available across our facilities (an average of 10 carriers per location), you have the choice of connecting with a variety of both top tier and local carriers.
